

TEMPSENSOR

Measure, control and optimise cargo & storage temperature

Temperature sensors are part of Ituran's Reefer Monitoring solution, an independent system that measures, monitors and controls temperature levels in closed space.

Excellent for a variety of storage facilities including refrigerators, mobile refrigerating and computer rooms.

Ideal for storage or transport of products and goods which require specific conditions or are subject to regulation like pharma, F&B, and computing goods.

Key Features

- Hardware by Maxim
- One-Wire Technology
- Unique 64-bit serial code
- Measures temperatures from (-55) to 125°C (-67) to 257°F
- $\pm 0.5^{\circ}\text{C}$ accuracy from -10°C to $+85^{\circ}\text{C}$
- Up to 4 sensors can be connected to each Starlink
